

See best practice of teaching the world-leading Singapore approach using *Inspire Maths* at an Advocate School

Inspire Maths Advocate Schools have been appointed as a result of demonstrating good teaching and learning of the Singapore approach using the only mastery programme proven to improve pupil progress in the UK: *Inspire Maths*. At an Open Morning, you will be able to observe lessons and ask questions about the school's experience of using *Inspire Maths*, including the impact on results, behaviour and pupil engagement.

Book your free place now and see first hand how *Inspire Maths* can help you to meet the increased standards of the National Curriculum whilst also creating confident and enthused learners of mathematics.
